 Lodging: If needed we are happy to recommend / Guesthouse:www.pitztalerhof.at / Boarding houses:www.haus-florian-wenns.at / www.landhaus-gasser.at

### Special features and options

When building a picture nativity, all styles and nativity representations are basically possible. We build appealing nativity scenes such as (Annunciation to Mary, Search for the Inn, Adoration of the Shepherds, Adoration of the Kings, Rest on the Flight into Egypt, Joseph's Dream, etc.) in a small box with an attached frame and relatively little depth. As material we mainly use Styrodur and cork bark. The lighting is an important component of these small nativities. Here LED light with a voltage of 12 volts is used. The figure size should be adapted to the overall size (up to maximum 15 cm depending on representation). Through an appealing background image, the representation gains corresponding depth and is essential for a harmonious overall picture. These picture nativities are predominantly hung at eye level on the wall and are a space-saving variant of box nativities!
