Special features and options

In the course "Old Master Oil Painting" we immerse ourselves in the master class of traditional techniques in the visual arts. We paint here like the old masters of the Renaissance. The priming of the painting surface, called imprimatura, is applied in a medium shade of the object to be painted. We then work out the light and shadow areas in generous surfaces. Only when the picture contains all the essential lights and darks do we lay the colors over it. This technique achieves an incredible luminosity of color. The "Old Master painting technique" is especially well suited for portraits. Enjoy painting with oil colors!
