Special features and options

The course "Dressing nativity figures" is a course for beginners and advanced participants! We dress nativity figures consisting of carved wooden elements (head, feet, hands) connected with wire. This makes it possible to determine the posture and movement yourself. Work is done with very thin fabrics made of cotton, linen and silk, some of which are dyed. Various adhesive and fixing materials ensure that the drapery no longer changes. The figures are then painted and, by applying a patina, ultimately receive a very natural appearance. MATERIAL LIST FOR DRESSING FIGURES: Apron, towel, kitchen roll, disposable gloves, cutting mat, scissors, nail scissors, utility knife, craft pliers, hair dryer, measuring tape or ruler, pins, wooden skewers (grill skewers), colored threads and yarns, various brushes, small glue bottle, a flat plate, fabrics! exclusively natural fabrics (very thin cotton, linen, silk), thin men's socks, T-shirt fabrics, men's shirts, headscarves, silk scarves, thin leather scraps, fabric handkerchiefs, especially thin knitwear. All fabrics are best when they are old and have been washed very often!!! Color and pattern do not matter, as we dye or paint over them!
