 Lodging: If needed we are happy to recommend / Guesthouse:www.pitztalerhof.at / Boarding houses:www.haus-florian-wenns.at / www.landhaus-gasser.at

Special features and options

In the course "Designing, Drawing and Sketching Nativity Scenes" we learn the step-by-step construction of a perspective nativity scene drawing. The basis is generally valid geometric drawing. With the help of one-point, two-point, and three-point perspective we construct rooms, buildings, columns and even entire city districts. With a "loose and secure stroke" we try to trace the geometric design onto tracing paper. The elaboration takes place with felt-tip pen, charcoal and possibly watercolor paint. With some practice every course participant is able to design their own nativity scenes. Have fun with "Designing and Drawing Nativity Scenes" - Peter Riml
