Special features and options

In the course "Old Master Oil Painting" we immerse ourselves in the premier class of traditional techniques of fine art. Here we paint like the old masters of the Renaissance. The priming of the painting surface, called imprimatura, is carried out in a medium shadow tone of the object to be painted. We then work out the areas of light and shadow in broad surfaces. Only once the picture contains all essential light and dark values do we apply the colors over them. This technique achieves an incredible luminosity of color. The "Old Master painting technique" is especially well suited to portraits. Enjoy painting with oil colors!
